EXPLORATORY HOLE # 7

General Notes
Property lines shown hereon are based upon a field survey performed by Adobe Associates, Inc. in July of 2007 and January 2008 and are based upon found iron pipe monuments and record information from that map titled "Record of Survey" recorded in Book 628 of Maps at Page 16, Sonoma County Records. A "Record of Survey" is in process with this office and will be submitted to the County of Sonoma for review and subsequent recording pursuant to Section 8762 of the Professional Land Surveyor's Act.
Features shown hereon are existing as of the date of the field survey performed by Adobe Associates, Inc.
The location of underground utilities and wiring was not a part of this survey. For the location of underground utilities, a subsurface utility locating company will need to mark such locations for identification.
Contours shown hereon are a 1' (one foot) vertical interval and are shown based upon a field survey performed by Adobe Associates, Inc. in July of 2007.
Bench Mark: Found 1/2" Iron Pin in well monument casing, 188 1/4" Northwestly of the intersection of Cloverdale Boulevard and El Rancho Drive, 30 1/4" Southwestly of the center of Cloverdale Boulevard, 12.5 +/- West of the center of a storm drain and 3 +/- Northeastly of a fence corner. Elevation = 342.90' to top of pin. (NAVD 1988 Datum). Information obtained from the "National Geodetic Survey" data information web site of www.ngs.noaa.gov/cgi-bin.

The validity of this permit depends upon the accuracy of the information provided by the applicant. A site plan must accompany this application. In addition to the information required on the Minimum Standard Site Plan (Form CSS-019), the site plan shall also include the proposed well location, existing well(s) location(s), GPS coordinates of proposed well, sewer mains and laterals, and other potential sources of contamination. If an inadequate site plan is provided and a second field visit is required, a charge at the current hourly rate will be assessed. The precise site location of the proposed well must be staked with the driller's name.
