WORKER'S COMPENSATION DECLARATION
 I hereby affirm under penalty of perjury one of the following declarations:
 I have and will maintain a certificate of consent to self-insure for worker's compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.
 I have and will maintain worker's compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My worker's compensation insurance carrier and policy number are:
 Carrier: _____
 Policy No.: _____
 (This section need not be completed if the permit is for one hundred dollars (\$100) or less).
 I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the worker's compensation laws of California, and agree that if I should become subject to the worker's compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.
 Exp. Date: _____ Applicant: _____

WARNING: FAILURE TO SECURE WORKER'S COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS (\$100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3708 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

OWNER-BUILDER DECLARATION
 I hereby affirm under penalty of perjury that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars (\$500).):
 I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044 Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale.)
 I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractors License Law.)
 I am exempt under Sec. _____, B & P.C. for this reason _____

By my signature below I acknowledge that, except for my personal residence in which I must have resided for at least one year prior to completion of the improvements covered by this permit, I cannot legally sell a structure that I have built as an owner-builder if it has not been constructed in its entirety by licensed contractors. I understand that a copy of the applicable law, Section 7044 of the Business and Professions Code, is available upon request when this application is submitted or at the following website: <http://www.leginfo.ca.gov/calaw.html>.
 Date: 7-2-12 Signature of Property Owner or Authorized Agent: Mike Weyles

LICENSED CONTRACTOR'S DECLARATION
 I hereby affirm under penalty of perjury that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.
 Lic. Class _____ Lic. No. _____
 Exp. Date _____ Contractor _____

ASBESTOS DECLARATION
 Written asbestos notification pursuant to Part 61 of Title 40 of the Code of Federal Regulations is required when asbestos exists in buildings, or portions thereof, undergoing demolition. I hereby declare that demolition authorized by this permit is from construction that () does () does not contain asbestos, or that () no demolition is authorized by this permit.

I certify that I have read this application and affirm under penalty of perjury that the above information is correct. I agree to comply with all local Ordinances and State laws relating to building construction. I hereby authorize representatives of the County of Sonoma to enter upon the above-mentioned property for inspection purposes. If, after making the Certificate of Exemption for the Worker's Compensation provision of the Labor Code I should become subject to such provisions, I will forthwith comply. In the event I do not comply with the Workman's Compensation law, this permit shall be deemed revoked.

ACCESSIBILITY REVIEW REPORT

Date 7/16/2012

Applicant Sonoma-Cutrer
Address PO BOX 9
City, State, Zip Fulton, CA 95439-0009

Site Evaluation at: 4401 Slusser Road
APN: 057-070-031
File Number: BLD12-2556

Dear Mr. Weeks

The California Building Code requires when alterations, structural repairs or additions are made to an existing non-residential building/facility or public/common areas of multifamily dwellings that those items being altered, repaired or added be fully compliant with accessibility regulations. In addition to the requirement at all new work be accessible compliant, the California Building Code requires that certain existing features be upgraded to comply with current accessibility standards. This requirement is triggered regardless of how minor the alteration, repair or how small the addition proposed. Partial relief may be granted from upgrading all existing non-compliant features when the required upgrades are disproportionately large as compared to the alteration, structural repair or addition proposed. For calendar year 2012, the project valuation threshold amount for determining disproportion is \$136,060. Projects valued less than this threshold amount may be granted relief via a process outlined under state code. Projects valued above that threshold amount may still qualify for relief via a separate process. Lastly, state law provides for limited, additional relief when required upgrades are not physically feasible due to existing site conditions, structural limitations or legal constraints.

To comply with state mandated accessibility regulations and applicable review process, it is essential to determine what existing features are not in conformance with current accessibility regulations. If all accessibility features and non-compliant features are identified, fully detailed and dimensioned on the plans submitted in the building permit application, staff will have sufficient information for plan review of those projects below the threshold valuation.

If the application does not contain details and dimensions, this report is required. For proposed work that exceeds the threshold amount, this report will always be required to verify the accurate portrayal of existing accessibility features. **The purpose of this report is to provide sufficient information to PRMD staff in order to accurately review, process, and approve a building permit application for existing buildings and facilities subject to accessible accommodations.**

State accessibility regulations are rapidly changing. Even if an accessible feature was installed a few years ago, that feature must be upgraded to current code compliance. This regulation may require the modification or entire replacement of an accessibility feature installed a short time ago. The process for seeking partial relief from upgrading all existing building and/or site features is via submitting an Unreasonable Hardship Determination. The methodology for approval is predicated on the

4401 Slusser Rd.
BLD12-2556

determination whether or not the proposed work is above or below the threshold amount. Approval of this type of determination is common.

The following items are not in compliance with the accessibility requirements of the 2010 California Building Code (CBC):

1. The submitted plans show an accessible parking space at the location of the new hoist, and indicate an accessible route/path of travel from the existing parking to the existing building. The following items at the existing parking and route of travel are not in compliance with the 2010 CBC:
 1. The parking space serving the area of construction is not provided with a sign stating (Minimum Fine \$250) as required by Section 1129B.4 CBC
 2. The door landing at the existing building along the route of travel does not provide a compliant landing within ½" measured from the threshold with a maximum 2% slope and cross slope as required by Section 1133B.2.4.2 CBC.
 3. Note: Existing accessible parking serving the visitor area is in need of maintenance the finished surface of the area is not in compliance with Section 1129B CBC.

~~The powered doors serving the tasting room and the office areas do not provide the lower push plate installed between 7" and 8" above the walking surface as required by Section 1133B.2.5 CBC.~~

Every effort has been made to develop a complete list of non-compliant features. However, it is possible that other items will emerge during the review of your building permit application or during the building inspection process. Due to ever changing code requirements, this report is only valid for one year after the completion date.

This report was created to address a specific project or building permit application. If other projects are proposed on this same property and possibly within the same building, another accessibility review may be required. For projects below the threshold amount, you may negate the need for additional reports by detailing accessibility upgrade features and non-compliant features in future permit applications based on this report.

You may seek relief from addressing some of the above noted items via an Unreasonable Hardship Determination. For projects below the valuation threshold amount, PRMD form BPC-015 is the applicable form. For projects above the threshold valuation amount, or if you are requesting equivalent facilitation due to existing site conditions, PRMD form BPC032 is the applicable form. Both forms are attached for your use. Either form may be submitted and processed in parallel with the building permit application or as a separate application.

The items identified in this report are intended to be a complete list for accessibility compliance if there is no application for an Unreasonable Hardship Determination. If an application for an Unreasonable Hardship Determination will, or has been made, it is highly likely that only a portion of the list will be

S:\BLDG_INSP\Accessibility Reviews\2012

4401 Slusser Rd.

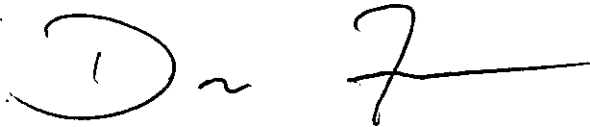

BLD12-2556

used in determining access compliance in conformance with the priorities set forth in the California Building Code.

It is recommended that the remaining items identified in this report be addressed on a voluntary basis even if an unreasonable hardship is granted and upgrade of all non-compliant accessibility features items are not required. However, fulfilling the requirements of the California Building Code as they pertain to alterations, structural repairs or additions do not necessarily mean that your project is in compliance with Federal American with Disabilities Act (ADA) requirements.

If you have any questions, please feel free to contact me between 7:30 am and 8:30 at (707)565-3718.

Sincerely,

A handwritten signature in black ink, appearing to read "Don Folsom". The signature is written in a cursive style with a large, looped "D" and a long horizontal stroke at the end.

Don Folsom
Senior Building Inspector

PROJECT:
Sonoma Cutrer Winery
Harvest Equipment &
Truck Scale
4401 Slusser Road
Windsor, CA

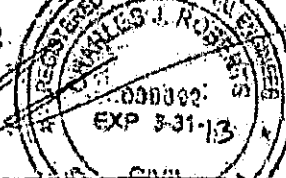

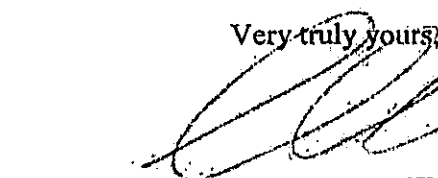

SUBJECT: FINAL INSPECTION LETTER

This is to certify that in accordance with Section 1704 of the California Building Code, we have provided the Special Inspections summarized below:

- 1. Reinforcing Steel Placement**
Footings, Slab, 2 Pits, Pit Walls
- 2. Concrete Placement & Sampling**
Scale Foundation, Walls for Scales, Crane Pit
- 3. Structural Steel Welding**
*Holst Frame - 24" diameter pipe col. (HSS16x8x $\frac{1}{2}$ " beam arm)
 $\frac{1}{8}$ " fillet @ 24" diameter pipe col. & 24" diameter cut pipe to 1 $\frac{1}{2}$ " base plate cut 24" diameter pipe to 24" diameter pipe col.
 $\frac{1}{8}$ " flare bevel groove @ cut 24" diameter pipe to 24" diameter pipe col.
 $\frac{1}{8}$ " partial pen @ cut 24" diameter pipe to 24" diameter pipe column & 24" cut pipe
 $\frac{1}{8}$ " fillet @ $\frac{1}{2}$ " end plate to HSS 16x8x $\frac{1}{2}$ " & $\frac{1}{8}$ " plate
 $\frac{1}{8}$ " plate to HSS 16x8x $\frac{1}{2}$ ", ST9x27.35, $\frac{1}{8}$ " & $\frac{1}{2}$ " plates
 $\frac{1}{2}$ " plate w/ studs to HSS 16x8x $\frac{1}{2}$ "
Flare bevel @ $\frac{1}{2}$ " plate w/ studs to HSS 16x8x $\frac{1}{2}$ "
CP welding @ ST9x27.35 to HSS16x8x $\frac{1}{2}$ "*

Based upon inspections performed and our substantiating reports, it is our professional judgment that, to the best of our knowledge, the inspected work was performed in accordance with the approved plans, specifications, and applicable workmanship provisions of the California Building Code.

Very truly yours,

Charles J. Roberts
