Dear Property Owner:

Section 1210 of the Uniform Building Code requires detectors in each sleeping room, in the corridor or area giving access to each separate sleeping area and in basements.

During the inspections performed for the re-roofing of your dwelling, we did not have interior access to check the installation of smoke detectors.

In order to grant a final approval on your re-roofing permit, it is necessary to verify the installation of smoke detectors within your dwelling.

Please answer the following questions, fill in the requested information at the bottom of the form and return the form by mail to the Sonoma County Building Department.

1. Smoke detectors are installed in all of the following areas:
 - a. Each sleeping room;
 - b. In corridors or areas giving access to the sleeping rooms;
 - c. On each floor, if a multi-story building;
 - d. In the basement, if a basement exists. YES [X] NO []
2. In dwelling units where the ceiling height of a room open to the hallway serving the bedrooms exceeds that of the hallway by 24 inches or more, smoke detectors are installed in the hallway and in the adjacent room. YES [] NO []
3. The detectors sound an alarm audible in all sleeping areas of the dwelling in which they are located. YES [X] NO []
4. Detectors are installed in accordance with the approved manufacturer's instructions. YES [X] NO []

Thank you for your assistance.
