Re: Cazadero Performing Arts Camp
Permit #: BLD 12-1360

Dear Rob,

Thank you for taking the time to meet with me at our site in Cazadero last week. As I mentioned, it is our intention to finalize and close out the building permit string that began with replacing the roof over our amphitheater and turned into adding an accessible path of travel to our dining hall, the amphitheater and related bathrooms, as well as renovation to both of those bathrooms in order to be ADA compliant.

We are aware that the path of travel is not 100% in compliance as both the cross slope and running slope in a few areas of the path are just beyond the maximum slope allowed. We would like to suggest a solution which we hope is an equivalent alternate facilitation. Our alternate facilitation would provide transportation via golf carts from our parking area to the amphitheater and/or bathrooms for anyone that requested assistance. We already provide this option to all of our participants and guests as they travel the remaining areas of camp that are not yet served by accessible paths of travel. We would include a sign at our main gate as well as at our accessible parking spaces informing our guests how they can request assistance should they require it to access any part of our camp facility. The signs would read:

For additional accessibility assistance throughout camp:

- check in at the camp office;
- ask any camp staff member; or
- call _____

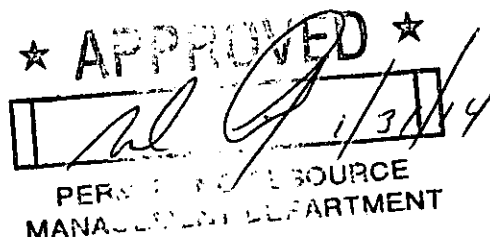

The phone number would be written in so we could change it as needed. On our concert performance days, when we have our most visitors, we have staff parking attendants that are readily accessible to assist any and all requests. We are also open to any suggestions you may have to make this solution more amenable.

It is and always has been our best intention to better accommodate all of our participants and guests at our camp facility and we want to conform to the ADA requirements as best we can. I look forward to hearing back from you regarding this request or with any suggestions you may have to make it work. If you have any questions or need more information, please do not hesitate to contact me at 510-527-7500 or by e-mail at [david@cazadero.org](mailto: david@cazadero.org).

Again, thank you for all your help in getting this matter resolved.

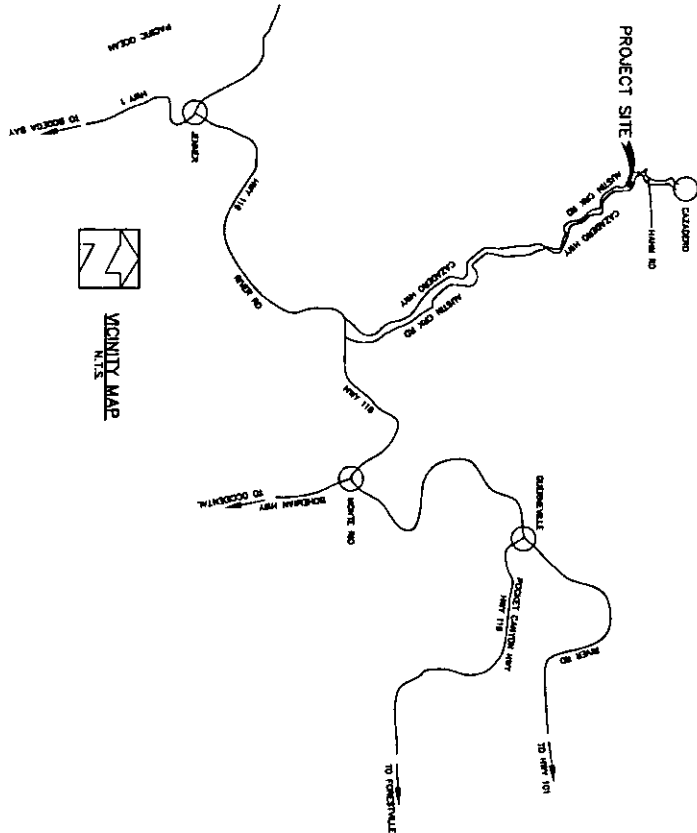

Regards,

David Wagner
