Re: Septic Permit No.: SEP03-1112, Site Address: 22095 Umland Circle

You or your representative has applied for a septic system permit to serve your proposal to

build a new single family dwelling

We are unable to provide zoning clearance for your septic permit for the following reason:

X

The septic system would serve a use that requires a discretionary permit. The required Coastal Permit permit has not yet been approved and zoning clearance cannot be provided until such approval has been obtained.

The zoning on the property is _____ This zoning does not allow the proposed use so zoning clearance cannot be provided.

Other: _____

For further information about how you might address the zoning issue, you can come to the Planning/Zoning Cubicle at the Permit and Resource Management Department, Monday through Friday between 8 a.m. and 4 p.m. and talk to the planner on duty.

RE: 22095 Umland Cl, Ukiah - Filtered Land System

The plan and/or data have been reviewed for compliance with Appendix I, Sections 1-1(f) and 1-1(g) of the Uniform Plumbing Code as well as Sonoma Code Chapter 7-5.

Approval of the subject proposal is withheld on the basis of the reason(s) listed below:

1- Provide a 50 foot setback to the roadside drainage on Umland Circle.

2- The location map appears to identify the wrong lot.

3- The "office" as identified on the floor plan submitted must have additional features within ~~the~~ order NOT to be classified as a 3rd Bedroom.

4- Please provide a Timber Cone ~~Water~~ Company will serve letters for the project. 2/18/04

5- Note: A Coastal Permit must be issued prior to issuance of a sewage disposal permit.

Dear Tracey,

Thank you for sending me the copy of the checklist you sent to Adobe Associates back in June 11, 2004 as you stated in our phone conversation of 2/16/06. Enclosed is a copy of page 2 of our latest plans which three entire copies (20 pages) were sent to Coastland Civil Engineering the earlier part of this month by Lincoln Logs. Plan copies were also given to the county building where you are located on August 16, 2005. The office in question has not changed since that date. Coastland Civil Engineering was assigned to review the plans from your county office. Some changes were made by Lincoln Logs and resubmitted to Coastland; but the office did not have any changes made.

I've been selling Mary Kay Products since September 2000. This indeed is my office and is not and will not be used as a bedroom. I have a large inventory of products and the shelves are to be built in shelves in what would have been a closet. I'm also putting our large safe in that area and want the doors to remain in order to close them off from any guests that may visit; in particular, grandchildren. I have ten all together that range in age of 1 1/2 years to 15 1/2 years. We are also having a built in desk area. It will be rather large, as I want it to have enough room to have our computer, 2 printers, fax and scanner located on the desk in addition to a phone.

I've enclosed a copy of the location map. All drainage is downhill from Ruoff to Umland Circle. There is a 12 percent grade from septic to house. I've enclosed drawings I received from Adobe.

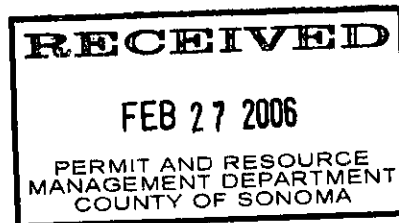

Hopefully this will complete the items you need to complete approvals for the Septic System. We would like to begin the septic system Spring 2006. Please advise.

Thank you.

Sincerely,

Linda Willes

Septic Permit #: SEP03-1112
22095 Urland Circle, Jenner, CA 95450

Dear Tracey,

I've enclosed the plan with built in shelving on the long wall of the office as we discussed in our phone conversation this am. I've also extended the desk area so that it will be enough to hold our computer, 2 printers, fax and scanner located on the desk in addition to a phone and still have room for working with sales and order records. This is my Mary Kay office and is not and will not be used as a bedroom.

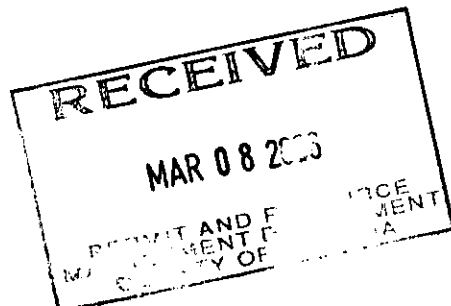

There is only my husband and I and our master bedroom is upstairs. We have one guest bedroom downstairs.

Hopefully this will complete the items you need to complete approvals for the Septic System. I appreciate the fact that you stated you would let Bill Seymour know that the Septic approvals are forthcoming as last time I spoke with him he said he would be able to start our septic system this Spring.

Thank you.
Sincerely,
