Re: Building Plan Check #: BLD19-1480
23210 Arnold Drive, SON

Plans for the above-referenced project have been reviewed for building code compliance. The applicable code versions are the 2016 codes adopted January 1, 2017. The following issues should be addressed before the approval process can continue:

1. Provide pachometer test for verification of retaining wall reinforcement and dimensions (footing and stem)
2. Provide engineering calculations for design of retaining wall

Please address the above comments and those on the plans. Please submit three (3) complete sets of any revised plans, and two (2) copies of any other documents needed. If you have any questions, please email me at, dchow@sonoma-county.org or call (707) 565-3605.

Thank You,

Derek Chow
Engineer
