Septic Site Address: 11062 and 11190 Graton Rd, Sebastopol
Subject: Well Permit Applications

APN: 104-090-036

Dear Weeks Drilling & Pump Company,

I have reviewed the above referenced applications. Please address all comments noted within this letter then return a complete resubmittal to Permit Sonoma to my attention. Also, provide a transmittal letter that identifies the recipient, sender, project permit number, site address, purpose of submittal, contents included, and date submitted. Incomplete resubmittals or failure to adequately address all comments will delay the review and permit issuance process.

1. The site plans submitted for these two applications are identical. Make the following changes:
 - a. Label the structures on the property and the corresponding addresses.
 - b. Identify which well is being permitted under each application.
 - c. Identify the structures which each well will serve.
 - d. Verify the address associated with each well (and the corresponding structure) is correct.
 - e. Identify the permit numbers of the two existing wells.

I can be reached at (707) 565-1693 and emmy.myszka@sonoma-county.org between 8:00 a.m. and 4:00 p.m., Monday through Friday, if there are any questions.

Sincerely,

Emmy Myszka, MPH, REHS
Environmental Health Specialist III
