PERMIT AND RESOURCE MANAGEMENT DEPARTMENT

Dear Mr. Barickman:

LACO Associates, Inc. (LACO) has reviewed the geotechnical related portions of the structural plans for conformance with the Soils Investigation Report by Reese and Associates, dated July 29, 2020, for a proposed residence and detached garage at 22090 Timber Cove Road in Jenner, California. Structural plans were prepared by MKM & Associates, dated July 15, 2021. On the basis of our review, we conclude the structural plans are prepared consistent with the intent of the recommendations presented in the Soils Investigation Report by Reese and Associates.

If you have any questions, please contact us at (707) 525-1222.

Sincerely,
LACO Associates
