

GENERAL NOTES

1. Contours shown are based on field work performed by Adobe Associates, Inc. in October 2018 and February 2019. Contour interval is two (2) feet, datum assumed.

CONCRETE TANK DEMOLITION NOTES

- The tank shall be pumped by a licensed septic tank pumper.
- The entire lid is to be broken in and disposed of inside the tank.
- Break a hole into the bottom of each section of the tank to provide for drainage.
- Review broken tank with County staff for documentation & backfill approval.
- Backfill the tank with a sand/pea gravel mix or river run material to a depth of approximately one foot below finish grade. Backfill with native soil compacted to native density.
