

Certificate of Flame Resistance

May 2021

Liba Fabrics is a business operating in New York, New York with Warehouses in New York and New Jersey.

This is to certify that the fabric below is manufactured with a yarn that is inherently flame resistant or durable flame retardant process. The fabric or substrate described below meets the minimum requirements of flame resistance established by the following test:

- NFPA 701-2010, TM #1 (small scale)

Liba Fabrics recommends annual testing of the material using the NFPA 705 Field Test Method for Textiles, accumulations of dust and liquids may reduce the flame resistance of the material.

Fabric:

- Style 5000 – 100% 118" Polyester Voile (all colors)
