Hello Mike,

It was great speaking with you this morning. I've noted that you will be back on October 30th, 2024, to continue working on revising the findings report.

I also spoke with Dave Kaffun about the violation on his structure. Since the framing is up, the Well and Septic Department has agreed to conditionally approve his building permit to allow him to continue work before the rain arrives. However, please be aware that neither BLD22-6424 nor WSR240350 will be finalized until the county receives the required documents.

If you need any further information or if there are additional updates before your return, please let me know.

Best regards,

Judas Ramirez

Hello,

I was reviewing the site map that is attached to WSR24-0350 and it is missing the water well location. Revise your application to show the location of the well.

Thank you,

Judas Ramirez

Good afternoon,

I initialized the WSR and it is now ready for payment. Please find attached the invoice.

Thanks,

Brenda Tinoco
